Academy motion clipper

The Motion Clipper is Wahl's most technologically advanced creation to date, designed to make cutting hair a smoother and more comfortable experience. The latest in lithium ion battery technology means you can cut without the restriction of a cord but maintain the power required to create a quality cut.

The detachable scissor handle offers a comfortable support and allows the clipper to be angled in different ways for more fluid movement. It can be easily removed if you find you prefer to cut without it.

The advanced battery offers a 90 min run time from just a 45 min charge time and the LED indicates your charge level, when it's green you are in motion when it turns red its time to charge.

The Motion also features an improved quick release blade set with a variable taper delivering the quality you expect from Wahl. A razor and texture blade are also available for this clipper.

Detachable scissor handle.

Improved quick release German blade set with variable taper.

Charging status LED display.

Features Lithium Ion Technology. 90 minute run time on a 45 minute super quick charge.

Wahl Lithium Ion^{ProLithium™}

The Wahl Lithium Ion delivers significantly more power than NiMH batteries.

Superior Power

Lithium batteries provide superior power to standard NiMH batteries because they dispel consistent power whatever the charge level and do not lose power when charge is running low.

Long Life Battery

Lithium clippers and trimmers will last twice as long as those with standard NiMH batteries.

Fast Charging Times

On average our lithium clippers can be fully charged within two hours.

Quick charge function

For example, over 15 minutes use from a 10 minute charge so you have peace of mind your clipper is always ready to go.

Environmentally Friendly

Lithium power is more environmentally friendly because it uses less electricity to charge and it doesn't lose power when its not in use.

CORDED CLIPPERS

Wahl's corded clippers are developed by our own expert engineers to deliver clippers that are the best on the market. Although the features vary to accommodate different needs, the quality of motor and design remains the same throughout the range.

PRO CLIP Classic[®] SERIES

Designed and manufactured in the US, the Pro Clip has a basic but powerful motor making this a great choice for students. Complete with all the quality features you can expect from a Wahl product, if you haven't used clippers before and want to get a feel for them before upgrading then this is the perfect option.

Motor: Vibrating armature~6000spm

STYLING

Wahl have been creating high quality styling tools for many years and it is an important part of our heritage. From high performance hairdryers to new innovative inventions such as the Long Barrel Curling Tong all the products have been designed with years of experience in mind.

POWERDRY HAIRDRYER

A powerful 2000watt hairdryer with a professional AC motor and a built in Tourmaline Grill, designed to keep moisture in the hair cuticles for a sleeker and shinier finish. The Powerdry comes complete with two concentrator nozzles, one slim for direct heat and one wider for greater airflow. Featuring three heat settings, 2 speed settings and a cold shot together with the 3m long cable it is practical for use in a salon and at only 743g in weight it is comfortable to use.

Motor: AC rotary
 Wattage: 2000W
 Product weight: 743g
 Cable length: 3m
 Includes: 1x ultra slim nozzle & 1x standard concentrator nozzle

Part Number	Barcode	Shipper Qty.	SSP Ex VAT
ZX751	5037127012390	12 pcs	£19.99
ZX720	5037127011348	12 pcs	£19.99
ZX844	5037127017463	12 pcs	£19.99

PRO IONIC

All the benefits offered by the Powerdry, including the Tourmaline Grill but with the addition of the Ionic function which passes heated negative particles through the dryer helping to improve the condition of the hair. The result is shinier and healthier looking hair. The powerful motor and contoured shape combine to provide superior airflow resulting in a faster drying time.

Motor: AC rotary
 Wattage: 2000W
 Product weight: 743g
 Cable length: 3m
 Includes: 1x ultra slim nozzle, 1x extra wide nozzle

WAHL ACADEMY

Opened in 2002, the Wahl Academy is intended for hairdressers at all levels who want to push the boundaries and maintain the high standards your clients have come to expect. Designed to educate, inspire and motivate, every delegate that attends a course at the Wahl Academy leaves motivated & confident with new ideas and techniques.

Balancing demonstration with practical teaching, every course has a relaxed, enjoyable atmosphere aimed to give you a fantastic opportunity to pull on the wealth of the Wahl Artistic Team's knowledge & experience.

You will receive a Habia endorsed certificate that recognises your achievement in terms of Continual Professional Development (CPD), vital for any salon professional wanting to stay up to date with the latest techniques & essential for educators in the delivery of NVQs.

A range of our current courses are listed below. For more information on the Academy or to book courses please contact us at Wahl (UK) Ltd:

T: 01227 740 555 | E: academy@wahl.co.uk | W: www.wahlacademy.co.uk

Traditional Shaving

The demand for male grooming has been steadily increasing over the last few years leading to a fantastic opportunity to grow salon profits by taking advantage of this expanding market. A wet shave can add an element of sophistication and luxury to your salon and offer your clients a new experience setting you apart from the competition.

It doesn't take a long to learn the basics of traditional shaving however it is important to ensure that you and your staff are trained sufficiently to maintain professional standards and make sure that they have the confidence to deliver this special treatment. Wahl Academy's Traditional Shaving course provides just that. This one day course will teach the correct use of a cut throat razor, traditional shaving methods with some modern influences, hot and cold towel treatments and aromatherapy treatments.

Clipper Design

The ability to create designs and patterns can really make your salon or barber shop stand out from the crowd. Patterns are popular once again and it makes good business sense to take advantage of this current trend and use it as an opportunity to increase profits. The ability to create a design and then transfer that design to hair and make it look sharp and 3D is a fantastic skill to have and one that allows you to show off your creative flair.

This is one of the few clipper design courses available in the UK, it doesn't matter if you have never done a pattern before and want to learn the basics or if you have been practicing for a while and want to develop and perfect your skill.

On this one day course you will learn:

- How to choose the best design
- Laying out your design
- Techniques and tools for perfect edges
- How to create a 3D effect

Although experience of design work is not needed three years of general barbering/hairdressing experience is recommended.

Divas and Dudes

Clippers are not just for barbers!! Expand your horizons with this inspirational course which will not only show you how clippers can be used to cut women's hair but demonstrate techniques that will change the way you look at scissors!!

Complete the latest modern cuts on both men and women using a variety of clipper blades. Go beyond fading and learn to texture, blend and layer using your clippers. This course is designed to inspire and add a new talent to your portfolio that will really impress your colleagues and clients.

Three years hairdressing experience is recommended for this course.

Ace of Fades

Fading is perhaps one of the most important skills in mens hairdressing and possibly one of the hardest to perform to a high standard.

Fades are a mainstream style that has been around for years, and due to the styles simple up keep requirements is likely to be a style that remains popular for years to come. The ability to fade well means the difference between good cut and a great cut. This course teaches all aspects of this classic barbering technique from the basics you need to know to create the perfect fade with no visible lines and a clean finish to the more advanced technicalities needed to achieve skin fades shading and blending.

This course is a must for anyone who serious about barbering and mens hairdressing.

Three years experience is recommended.

Funky Men

All serious professional barbers and hairdressers know how important it is to stay up to date with styles and techniques and get the most out of your skills. With constant changes to fashion there is always something new to learn and everyone needs a refresh from time to time.

Funky Men is an advanced barbering course is ideal for updating basic skills and learning new techniques for achieving the latest looks such as the Simon Shaw's 'famous flick & smack' texturing method.

If you want to bring the men back into your salon and keep them there then this is the course for you!

The course is made up of practical sessions and three years experience is recommended.

Solid Foundation

This course has been designed to build confidence in newly qualified barbers, it is also perfect for experienced hairdressers who want to expand their skills into barbering or for someone who has been out of the industry and want to refresh their skills before returning.

The two days are made up of demonstrations and in depth practical sessions covering layers, graduation, clipper/scissor over comb and hairlines, these techniques give you a solid foundation from which to build up from and become an expert in this area.

COMMON CLIPPER PROBLEMS AND SOLUTIONS

PROBLEM: My clipper is making more noise than it used to.

MAINS ONLY

Solution: Clean and oil the blades, then adjust the voltage screw (located on the opposite side to the switch) turn this anti-clockwise until the noise subsides and returns to normal.

PROBLEM: My clipper keeps cutting out.

MAINS ONLY

Solution: Check the lead for any fractures, these can happen through general wear and tear. If there is a fracture then the lead can be replaced by contacting Wahl.

PROBLEM: My clipper is pulling the hair.

Solution: This happens when the blades are not aligned correctly. Directions on how to realign blades are in your instruction booklet.

PROBLEM: My clipper is nipping the skin.

Solution: This could be because the blades need to be realigned or it may be that the blade is damaged. If the clipper has been dropped the teeth in the blades could be broken and if this is the case the blade will need to be replaced.

PROBLEM: The snap on/off blade keeps falling off.

Solution: This is normally because of broken lug(s) on the blade chassis, the blade will need to be replaced.
